Kepak Group is a young, professional and dynamic business that has grown into one of Europe's leading food processing companies. Established in Clonee, Co Meath in 1981 by Noel Keating, the Group has expanded significantly and is now divided into three Strategic Business Units comprising Kepak Meat Division (KMD), Kepak Convenience Foods (KCF) and AgraKepak. The Kepak Group employ 1900 across Ireland and the UK, with seven manufacturing facilities processing beef, lamb and consumer foods.

The Group's **Head Office** is based in Clonee, alongside **Kepak Clonee**, one of the Group's largest beef processing facilities. In total, there are over 330 people employed at the site. We believe that the site is excellently located for a number of reasons;

- the road infrastructure around Clonee is second to none with excellent access to all of the major road networks, enabling efficient distribution to domestic and international customers
- access to a large pool of skills based in and around the Dublin, Meath, Kildare, Wicklow, Louth and Westmeath areas
- access to a large cattle supply base in the surrounding region
- proximity to Dublin Airport, which facilitates a large number of customer visits and employee travel
- proximity to Dublin city centre

Our location enables us to provide excellent parking facilities for our staff, and as the majority live locally, they also avoid the strains associated with traffic congestion. In fact, many of our employees cycle or walk to work, enjoying a positive work/life balance.

We would definitely recommend Clonee to any business seeking a well located base for their operations.

Yours Sincerely,

Niamh Keating

Kepak Group
