Testimonial

Autobar Vending Services are part of Europe's largest operated vending organisation with operations in 11 European countries.

Our Irish business re-located to City North business campus in May 2011.

We made this decision primarily as a result of the ease of access to the motorway network now linking all major urban centres on the island of Ireland.

In Ireland, Autobar Vending Services operate in excess of 3,000 Vending machines across the island. As a result of which motorway access is hugely important.

The move to City North at junction 7 off the M1 Motorway, has allowed us to centralise our administrative and warehouse function in one central location from which we can provide first class service to all of our customers on the island of Ireland.

We would be happy therefore to recommend City North as a business location.

A handwritten signature in blue ink, appearing to read "A. Cooney", is written over a light blue horizontal line.

Anthony Cooney
Managing Director
Autobar Vending Services
