

# How to Download eBooks on a PC & Transfer to eReader

---

To download an ebook...

## 1. Make sure that you have installed Adobe Digital Editions.

If you haven't installed this software yet, please visit the [Adobe Digital Editions download page](#) and follow the installation instructions provided.

## 2. Authorise your Computer

On first launch of Adobe Digital Editions click on **Help > Authorize Computer**. In the following screen choose **Adobe ID** from the dropdown menu and enter your Adobe ID and password.

If you don't have an Adobe ID yet please click on the **Create an Adobe ID** link on the right hand side or visit the [Adobe login website](#) and click on **Get an Adobe ID**.

## 3. Download eBook to computer via BorrowBox website

- Sign In to BorrowBox at <https://meath.borrowbox.com>
- Browse eBooks and make selection to borrow.
- On the download page press the Download eBook button.
- When you get a pop-up dialogue box asking you whether you would like to "Open, Run or Save", make sure that you select **Open With** and **choose Adobe Digital Editions**.
- Adobe Digital Editions will then import the eBook file and you can find it in the Borrowed section on the left side.

## 4. Transfer an eBook to an eReader device

NOTE: For first use you will also need to Authorise your Device on Adobe Digital Editions using the same Adobe ID.

- Attach your eReader device to your computer using connection cable provided with eReader.
- Right click on the device when it shows up in the left hand window and click Authorise Device – use your Adobe ID to authorise the device on the next screen.
- **You will see a prompt on your Kobo asking to allow your computer to access your device – you should click ALLOW.**

- Downloaded eBook will appear in Adobe Digital Editions in the list on the left side.
- Now click and drag the eBook onto the device.

**Enjoy!**
