Pending or Withdrawn

Refused

Low Development Pressure Area (62)

One-off Home Completions (Total = 183)

KEY FINDINGS ARISING FROM YEAR 3 MONITORING

- Over the monitoring period, the Council granted planning permission for 49 multi-unit residential applications on zoned lands.
- While a total of 2,698 residential units were given a final grant of permission, a further 503 units remain under appeal and 201 units are the subject of JR.
- The backlog of applications with An Bord pleanala is reducing at a greater pace than previous years.
- Between Jan 1st 2023 to Dec 31st 2023, a total of 1,637 (1,576 in the National Housing Tracker) units were recorded as completed and occupied within urban and rural areas during Year 3 of the CDP.
- While completions for 2024 are not yet available, CSO records state that 3,334 units have commenced since Jan 2024.
- Construction activity appears to have increased and the waiver of the Development Levy is likely to have significantly influenced this figure.
- Commencement Notices do not necessarily lead to completions.

Commercial Monitoring

Meath recorded the lowest vacancy rate for commercial properties Stock in the country.

Ashbourne, Co. Meath, recorded the most significant year-on-year decrease in its vacancy rate, dropping by 2.2 ppts to 11.1% in Q2 2024, making it the fourth lowest town vacancy rate in Leinster.

Commercial Floorspaces Granted by Year and by Category (m2)
